123 Main Street
Anytown, NY 12345

Patient Name: John Smith
Date of Birth: 09/15/1950
Record Number: 0159834
Date / Time of Procedure: 11/11/2011, 07:56:49
Referring Physician: Frank Black, MD
Endoscopist: Debbie Doe, MD

PROCEDURE PERFORMED: Colonoscopy - complete to terminal ileum.

INDICATIONS FOR EXAMINATION: Blood in stool.

INSTRUMENTS: CF 180 254875

MEDICATIONS: Versed 3mg IVP, Fentanyl 100 mg IV

VISUALIZATION: Good **TOLERANCE:** Good **COMPLICATIONS:** None

EXTENT OF EXAM: Terminal ileum

LIMITATIONS: None

PROCEDURE TECHNIQUE: A physical exam was performed. Informed consent was obtained from the patient after explaining all of the risks (perforation, bleeding, infection and adverse effects to the medication), benefits and alternatives to the procedure which the patient appeared to understand and so stated. The patient was connected to the monitoring devices and placed in the left lateral position. Continuous oxygen was provided with a nasal cannula and IV medicine administered through an indwelling cannula. After adequate conscious sedation was achieved, a digital exam was performed and the colonoscope introduced into the rectum and advanced under direct visualization to the terminal ileum.

The terminal ileum was identified by visual landmarks. The scope was subsequently removed slowly while carefully examining the color, texture, anatomy and integrity of the mucosa on the way out. In the rectum, the scope was retroflexed to evaluate for internal hemorrhoids and anorectal pathology. The patient was subsequently transferred to the recovery area in satisfactory condition.

FINDINGS:

Normal to the terminal ileum

Internal hemorrhoids

ENDOSCOPIC DIAGNOSIS:

Normal colon

Internal hemorrhoids without complication

RECOMMENDATIONS:

Follow-up procedure in 10 years

Continue current medications

High fiber diet

Await biopsy results

CPT Code:

45384 Colonoscopy, flexible, proximal to splenic flexure; with removal of tumor(s), polyp(s), or other lesion(s) by hot biopsy forceps or bipolar cautery.

ICD Code:

578.1 Blood in stool

455.0 Internal hemorrhoids without complication

1 Cecum

2 Ascending Colon

3 Descending Colon

4 Internal Hemorrhoids
